General Directions to Customers

The attention of customers is respectfully called to the following directions, which will, if followed, be an aid to purchasers as well as myself:

ORDER EARLY. I aim to execute all orders as soon as received, but during the rush season from March to May and again from July to September, slight delays are unavoidable, which, however, can be largely overcome by patrons anticipating their wants and ordering and taking delivery of their requirements early.

SAFE ARRIVAL OF PACKAGES. I guarantee the safe arrival of all goods sent by express or mail to points within the United States. If a package sent by express or mail is injured or lost, I will replace it as soon as informed of the fact. Goods sent any other way are solely at purchaser's risk. Frequently it happens that orders never reach me or are without signature. When customers fail to receive their packages in a reasonable time they should inform me, and at the same time send a copy of their order and any other information necessary to trace the goods. Claims for damage must be made on receipt of goods. I do not hold myself responsible for failure after delivery of the goods in good condition.

ERRORS. I exercise the utmost care in filling orders, striving to do a little more than I offer; yet in the press of business, errors sometimes occur, in which event I wish to be promptly notified of the fact, and will make such corrections as will be satisfactory. Please keep copies of all your orders for comparison.

REMITTANCES should be made by Post Office Money Order, Express Money Order or Checks. I disclaim all responsibility when remittances are not made as above directed. Where it is not possible to obtain these, the letter should be registered. Coin should not be sent by mail.

 **Please do not send personal check under \$1.50 unless you** 
add 10 cents for collection fee.

CASH WITH ORDER. Please send money with the order sufficient to cover the whole bill. I decline sending goods "Collect on Delivery" unless remittance be made on account to guarantee acceptance.

NON-WARRANTY. Most of the failures with seeds, plants and bulbs are due to causes entirely beyond my control, such as unfavorable weather or soil conditions, too deep or too shallow planting, etc., which renders it impossible for me to guarantee success, and although I take all possible care to supply only such goods as will, under proper conditions, produce satisfactory results, I will give no warranty as to description, quality or productiveness of any of the seeds, plants or bulbs I send out, and will not be in any way responsible for the crop, and every order for articles named in this catalog will be executed on these conditions only. It must, however, be plain to everyone who gives the matter the slightest thought that it is to my best interests to send out only such stock as will not only grow, but prove true to name and description.

HARDY PERENNIAL FLOWER SEEDS

For Spring and Summer Sowing

**ALL FLOWER SEEDS SENT POSTPAID
NO SEED ORDER FOR LESS THAN 25c PLEASE**

PLEASE DO NOTE!

 All seed packs contain a liberal amount of seed. If you have a large garden, the most economical way to buy seeds is in bulk; 1/16 oz. and up, where so quoted.

In comparing competitive prices be assured that you get fewer and often inferior seed at the lower prices.

To grow high grade seeds takes more care and skill, and costs more money, but it certainly pays in the end to buy only such seed. This refers particularly to Delphinium, Columbine, Primroses, Pansies, Sweet Peas and Zinnias.

Of course the seeds must be fresh, and be assured mine are. Buying old or inferior seeds is a waste of money and time. No seed order for less than 25c, please.

A DELPHINIUM FLOWER OF PUDDR'S "PRIZE WINNER" STRAIN

Life size, 3 inches

Putting a silver dollar over the picture will make you realize the size of the flower.

DELPHINIUMS

(Some 1947 Seeds still available. 1948 Seeds ready about Aug. 1st)

PUDOR'S PEDIGREED PRIZE WINNER STRAIN. The choicest seed you can obtain. Mostly double 2 $\frac{1}{4}$ to 3 inch blooms; shades running from lavender, violet, sky blue to the deepest blue; mostly with pinkish fillings. Height 6 to 8 feet. Prize winners for many of our customers in many cities year after year. In choicest MIXTURE, **per pkt.** (about 200 seeds plus) **\$1.00;** **1/2 pkt. 60c; 1/16 oz.** (over 600 seeds) **\$2.50.**

GENERAL MIXTURE FIELD RUN PRIZE WINNER STRAIN. You will raise many beautiful plants from this mixture. I keep no poor specimens in my gardens. **Per pkt. 50c; 1/16 oz. \$1.50.**

PUDOR'S "PURPLE PRINCE". A great favorite. Large double rich royal purple. Very vigorous. **Pkg. \$1.00; 1/2 pkg. 60c.**

Please, note that I will offer no more seeds of my beautiful variety "DREAM". For years it has proven to be such a scant seed bearer that it has been a losing venture to take care and propagate it and take valuable space in my garden.

Pudor's Black-Velvet-Eyed White Delphinium. Very Rare.

BLACK-VELVET-EYED WHITE DELPHINIUMS. After years of careful requeing, selecting plants, we have now plants that will produce a high percentage of large black-eyed double whites; many of our breeders have very large coal-black glowing centers. All the plants are strong and vigorous and are true perennials, not apt to die after their first blooming season. You will get a few blues in a lot and all the whites will not have black bees. Please remember this when your plants begin to bloom. **Per pkt. \$1.25; 1/2 pkt. 75c; 1/16 oz. \$3.00** (over 600 seeds).

WHITE DELPHINIUMS, "PUDOR'S WHITE WONDER PACIFIC STRAIN". Vigorous tall growing, mildew proof with large double glistening, pure white blossoms. $2\frac{1}{2}$ to 3 inches in diameter. Centers are pure white, some cream, sometimes coal (a mere chance). You must expect some blue rogues among the seedlings. Many customers think our strain of **White Delphiniums** is the best ever in texture, color, vigor and size of blossoms. **Pkt. \$1.00; 1/2 pkt. (100 seeds) 60c; 1/16 oz. (approx. 600 seeds) \$2.50.**

SHAKUNTALA (Indian Princess). This plant originated from one of many seeds (Pudor's Prize Winner Strain) which were years ago exposed to a dose of a Million r's X-rays at the Swedish Hospital in Seattle. It is a very remarkable plant in several ways. The leaves are very large and handsome, the plant itself very vigorous. Last summer it grew to a height of 9 feet and visitors were astonished. The flowering stalks are 4 feet long, the stems of the individual blossoms are 6 to 9 inches long; a dozen blossoms make a nice bouquet that you can hold in your hand. The flowers are extremely double and triple; more like a rose, and no "bee" is visible. The whole center is filled with crinkly petals, the outer ones being of a beautiful clear blue color, the others a pleasing mauve. Seedlings from SHAKUNTALA are remarkably handsome—a few better than the parent plant, nearly all inheriting the long individual flower stems. A small amount of seed is available this Spring and again around AUGUST 1st. **Per pkt. (cont. some 50 seeds plus) \$1.00.** Supply will be very limited, as the plant does not produce many seeds.

MY SENSATIONAL NEW DELPHINIUM "SHAKUNTALA"
The 3-inch blossoms are borne on stems which are 6 to 9 inches long.
For description see page 3.

PUDOR'S "LAVENDER QUEEN". 3 inch double, glorious pure lavender flowers with a small white center or bee. **Pkg. \$1.00; 1/2 pkg. 60c.**

PUDOR'S "BLUE BIRD". Double, large, beautiful deep blue flowers without a trace of mauve. The "bee" is black and prominent. Gives beautiful seedlings. **Pkg. \$1.00; 1/2 pkg. 60c.**

V. & R. PACIFIC STRAIN "BLUE BIRD". Produce clear, medium blue, 2½ inch flowers on long graceful spikes. A true blue Delphinium, with a **WHITE** bee. Pudor's "Blue Bird" has a black bee so be sure to say which of the two you want. This is hand pollinated seed and the price is **\$1.25 a whole pkg.** (200 seeds) **1/2 pkg. 70c.**

ALL THE ABOVE MENTIONED SEEDS ARE AVAILABLE THIS SPRING (1948)

Seeds of "SHAKUNTALA" will be quickly sold out; please, name a substitute for Spring delivery or when sold out will make delivery this summer if you wish (always subject to crop).

FOR SUMMER DELIVERY FROM THE 1949 SEED CROP I WILL HAVE IN ADDITION TO THE ABOVE VARIETIES, TWO NEW SEED OFFERINGS

The plants you will raise from this seed will be a revelation to you. Owing to my rigorous selection of seed bearing plants, the best I have, the seed supply from these plants is very limited. So, please, put your order in EARLY. Seed: **Pkt. \$2.00; 1/2 pkt.** (a minimum of 100 seeds) **\$1.00.** (no free replacement) **1/16 oz. \$5.00.**

The plants grow to a height of about 2 to 3 feet, and make a very fine cut flower. Best treated as an annual, though in many sections it will prove a very satisfactory perennial. **Pkt. 20c; 1/8 oz. 75c.**

Mrs. Sheldon of Idaho writes: "I received the package of Delphinium seeds I sent for. I froze them as you suggested, planted them immediately and in a week they were up and I am safe in saying there must be by the looks of them a 90% germination. Your seeds are wonderful."

Two Worthy Outstanding 1948 Novelties

COSMOS RADIANCE. Winner of the highest award in the 1947 "All America Trials." A "BODGER" creation. RADIANCE is an entirely new color combination of two brand new colors. The petal color is a deep rose, the zone a true rich crimson. Flowers are of great size; its habit is composed and erect. At a cut flower it is outstanding; good long stout stems of exceptionally long lasting power when cut; all the buds flower excellently after being cut. It looks charming under artificial light, a soft glowing rose with a velvety look. Not many flowers look their best under artificial light. ALTOGETHER COSMOS RADIANCE IS AN OUTSTANDING CHARMING FLOWER THAT WILL THRILL YOU.

Seeds PER PKT. 20c; $\frac{1}{8}$ oz. 60c

Luther Burbank Zinnias (Burpee)

LUTHER BURBANK ZINNIAS are of the lovely, delicate pastel or art shades; the many self colors range from cream and primrose through delicate buff-yellow, canary-yellow, ivory, soft salmon, warm rose, chamois, apricot, peach, blush pink, salmon-pink to clear, bright rose. There are also unusual two and three-color combinations of soft and light shades in some of the individual blooms. When an occasional pale lavender or light orange bursts into flower, it is always a tone that blends harmoniously with the others. To further enhance the beauty of flowers, many of the small tufted centers have deeper colored paleae which contrast beautifully with the shade of the petals.

Flowers grow 5 to $5\frac{1}{2}$ in. across and are composed of numerous petals which curl back somewhat to form thick flower heads 2 to 3 in. deep. Individual petals turn under at the end, giving them an unusual effect, thus adding charm and interest. Please Note Carefully

This is my ANNUAL catalog for 1948—covering both the SPRING and FALL seasons. NO SEPARATE IRIS OR FALL CATALOG WILL BE ISSUED. It contains a list of over 60 of our best and most popular Iris including several of the best recent Novelties at newly revised, lowest prices. I will meet any lower prices made next summer by legitimate and reasonable competitors. I am sure you will find my prices most reasonable considering the quality of our superior rhizomes, grown in the Northwest Pacific climate and soil. They simply can't be beat!

The BULBS listed in the catalog will be ready for planting in September; REGAL LILIES in October. I wish to call special attention to our Pacific grown, freshly dug Regals—there are none better, few as good. You get them freshly dug from the good earth which is a vital point in the successful growing of this beautiful lily. Bulbs are not kept in storage out of the ground for weeks, which is hard on them; you get them fresh and crisp. To avoid disappointment both for you and me, please, order EARLY in the summer. Thank you.

LOST OR MISPLACED? When summer comes around and you cannot find your catalog sent you in the early spring, write for a duplicate and please, send a silver dime along to help towards the cost, handling and postage which you may deduct from your order or lose if you don't order. FAIR ENOUGH!

KIND WORDS OF PRAISE FROM CUSTOMERS. THERE IS A REASON!

"The Polyanthus plants I raised from your seed purchased in the fall, bloomed this Spring and the results have truly been a pleasant surprise. Such a splendid array and color and variety; plants were large and stems strong. All the seeds germinated so had many to give away. FROM NOW ON I BUY MY SEEDS FROM NO ONE ELSE."

Saginaw, Mich., July 6, 1947.

"Last year I tried your Delphinium seed of SHAKUNTALA which were beautiful and the BLACK VELVET EYE WHITE Delphinium WERE BEAUTIFUL. I also tried PUDOR'S PEDIGREED PRIZE WINNER strain; among these I had dark blues which are wondrous. I also had a beautiful lavender. Everybody stops to look at my Delphiniums."

Cresshill, N. J., June 23, 1947

"Always have success with your seeds. Annuals now blooming from Spring sown seed with perennials from last Fall's sowing. Beautiful."

"A year ago I planted seeds from 4 different Companies in a cold frame and the difference in germination was most striking; the seeds from your Company must have come up almost 100% and I shall certainly buy my seeds from you henceforth when I get the varieties wanted."

Litchfield, Ills., September 3, 1947.

"My brother tells me the only place to get Delphiniums is at Pudor's."

Provincetown, Mass., July 13, 1947.

"I want you to know that this year I have had the most beautiful plants from your seed that I have ever grown. They are magnificent—large flowers, full wonderfully rounded sprays, tall with many stalks. I have invited in all my garden-loving neighbors to see them."

Portland, Ore., June 14, 1947.

Am greatly pleased with the marvelous results of your seeds; I believe every seed germinated.
Mrs. C. N. P.

Namarata, B. C., June 10th, 1947.

The Black Velyety-eyed Delphinium seed I ordered from you is just proving itself and I have never seen anything more spectacular and beautiful.

Mrs. R. W. C.

White Earth, N. Dak., May 25, 1947.

I am sending you an order for some more of your black-eyed White Delphiniums. I can't tell you how beautiful my flowers have been. Nobody has ever seen anything like it.
Mrs. C. O. R.

Concord, North Carolina

Our "Aunt Mary's Sweet Corn" was marvelous last year. Enjoying it now canned. Tastes most like fresh.

Mrs. C. A. C.

Plainview, Nebraska

I just want to say we never enjoyed or raised such a surprise as "AUNT MARY'S SWEET CORN." We had it very dry but didn't seem to hurt it and for two full months had corn from one planting till frost killed it. I tell everyone about it.

Mrs. C. W. S.

Portland, Ore., January 20, 1947

"I want you to know that the WHITE DELPHINIUMS which I bought from you and which bloomed last Fall from Spring sown seeds were the most magnificent ones I ever have seen. I have never seen larger blooms nor huskier plants and they bloomed until frost."

Drs. D. H.

East Moline, Ill.

"After several years of growing your Delphinium seed, and having grown others, I want you to know that I share your opinion that no better seed is produced.

"Our climate (so I am told) being on the hot side, is not ideal for growing Delphinium, but I have certainly had good results. To mention the best, and I wouldn't do less, I have had blooms that were much larger than a silver dollar and plants 6 feet tall. This probably is nothing to compare with what you grow but I can't expect to do as well."

E. S.

While I use the greatest care to have all plants, bulbs and seeds furnished by me, true to name, and will replace any that prove untrue, no sale by me carries a warranty of quality, express or implied, and for any error I shall not be liable for more than the purchase price. Every purchase from me is made on these terms.

AUNT MARY'S SWEET CORN

Again I offer this grandest and sweetest of all Sweet Corn on the market.

ORDER EARLY. There is never enough to fill late orders.

Never was sweet corn that tasted as sweet. It will stay in good condition for table use for two or three weeks. It stays in milk so long that natural ripening is impossible; ears that were ready for table use in October were still in milk when hard frosts killed the plants in November.

BY ALL MEANS GIVE THIS SWEET CORN A TRIAL THIS YEAR AND YOU WILL COME BACK FOR MORE NEXT YEAR. Make your first planting during May two weeks apart; make another one the second week in June, another the last week in June, and the last planting the first week in July, and this will furnish you sweet green ears in early October.

We have had reports from customers having the ears for table use for Thanksgiving. They had made late plantings of seed in June and July.

PRICE OF SEED. Enough for 50 to 75 hills **25c. 3 PACKS for 70c.** $\frac{1}{2}$ pound will produce approximately 500 plants and cost **70c, postpaid.** West of the Rocky Mountains; **75c postpaid.** East of the Rocky Mountains.

SPECIAL PRICE BY THE POUND. West of the Rockies, **\$1.30 postpaid; \$1.40** East of the Rockies. **BY EXPRESS,** charges collect **\$1.25 per pound,** anywhere.

I have hundreds of customers in all sections.

A CHOICE LIST OF NEW AND GOOD OLD BEARDED IRIS (Germanica)

**DELIVERY ONLY FROM JULY 15th TO OCTOBER 15th (Not later)
(NO SPRING SALES)**

 Prices in this Iris List supplant those in all previous price lists. Please do not order from previous catalogue.

CANADIAN CUSTOMERS will please add 15c per pound to their order and will have to obtain plant permit from the Plant Bureau at Ottawa before shipment can be made.

IN THE UNITED STATES IRIS ORDERS AMOUNTING TO \$2.00 OR LESS ARE NOT PREPAID AND MUST INCLUDE 25c POSTAGE WHEN ORDER IS GIVEN. NO ORDER FILLED FOR LESS THAN \$1.50.

I cannot recommend too strongly July and August planting of Iris. I CANNOT SHIP BEFORE JULY 15 NOR AFTER OCTOBER 15.

Prices for Iris as quoted below are for one new plant or one rhizome which will bloom next season and on which the new side shoots or "babies" will develop before winter sets in; this will be your increase for next year. In July and August these new eyes are very small but will grow rapidly during September and October.

Consequently, in July and August the new rhizomes weigh very little, but each month thereafter they increase rapidly in weight until in October the plants of vigorous sorts will weigh as much as one pound, which means two pounds when packed; the postage on such a plant would be 15 cents to the Central States and 25 cents to the East. So you can readily figure out that I could not afford to pay the postage on any variety quoted at 35 to 50 cents. So please note carefully:

PRICES FOR IRIS AS QUOTED BELOW INCLUDE THE POSTAGE TO ANY PLACE IN THE UNITED STATES—BUT ONLY FOR JULY AND AUGUST DELIVERY WHEN THE RHIZOMES ARE SMALLEST AND LIGHTEST IN WEIGHT.

For September delivery, please add the following postage to the net prices quoted:

Number Drordered	West of the Rockies	Central States	Southern and Eastern States
4	10c	18c	25c
6	13c	24c	35c
10	17c	35c	55c
11 to 15	25c	45c	75c

Over 15 plants by Express, Charges Collect

For the month of October, when most of the plants are really big clumps with their "children" grown up, we recommend Express shipments only, which will not be prepaid. They can be sent by Parcel Post if you choose so, but the full postage has to be forwarded with the order.

DUTCH IRIS. These charming orchid-like Iris bloom last of May into June. Ideal cut flower for Decoration Day. In choice mixture of blue, yellow and white, and their combination.

Per Doz. 90c Postpaid; Per 100 \$7.00 Postpaid

DUTCH IRIS "TINGITANA"

The largest of all. Huge flowers of azure-blue and a golden spot in center. Blooms earlier than the others with Tulips and Azaleas. These are the flowers you see in the florists windows in early Spring; they force well. Not hardy in cold Northern States unless well mulched. (Not less than 6 sold). **Large bulbs \$1.00 per Doz.; 25 for \$1.75; 2nd size 75c Doz; 3 Doz. \$2.00 Postpaid**

Notice about planting Dutch Iris. Plant them as late in the fall as possible to prevent them from making a top Fall growth, which a severe cold early spell might hurt the bulbs. As soon as the ground freezes mulch them with dead leaves or evergreen boughs. Straw is not good for any mulching for it packs and is apt to harbor mice during the winter.

COLORFUL RANUNCULUS

Plant these in quantity for cut flowers or garden show.

During recent years the Ranunculus has become one of the most popular early spring blooming flowers, being used extensively for massed beds or borders. They may be planted from September to February or March, the earlier planting, however, will produce a more sturdy growth and a greater number of flowers over a longer blooming period. Plant with the claws downward; set a few inches apart in the rows and cover to a depth of 2 to 3 inches. The general cultural directions for Ranunculus are practically the same as those for Anemones to which please refer. MIXED COLORS in pinks, reds, yellow, orange and white. NOT SEPARATELY SOLD.

80c per doz. Postpaid; 25 for \$1.60 Postpaid; 50 for \$3.00 Postpaid

The bulbs are by nature small and tender and must be well protected during the winter. They can also be planted EARLY in the Spring.

ANEMONES

Small hardy bulbs producing in early Spring magnificent brilliant large saucer shaped single or semi-double flowers. A dozen or more flowers to a bulb. Strange to say, small bulbs do best, while over-large bulbs and old bulbs deteriorate and produce few and small flowers. Anemones should be transplanted every 2 years and the old bulbs thrown away. They grow well and easily from seeds.

Pkg. 25c

SINGLE MONARCH DE CAEN. (The Poppy Anemone) Huge saucer shaped single flowers in brilliant shades of pink, red, white and blue.
(Not less than 1 Doz. sold)

Per Doz. 75c; \$6.00 per 100 Postpaid
